

PROJECT OF THE MONTH

Solar Installation Project Named “Best”

The Association of Energy Engineers has named the solar installation at Patriot Place “the best renewable energy project in New England.” RDK Engineers provided consulting and design services as part of the Constellation Energy team along with Structural Engineer McNamara/Salvia.

The Patriot Place solar installation, when finished, will span seven of the complex’s rooftops and supply about 30 percent of the power needed, while also preventing 8,800 metric tons of carbon dioxide. This is the same as removing 1,526 cars from American roads, or planting 204,698 trees.

“This is a great opportunity for the public to see solar power in action.” said Bob Persechini, RDK Principal. “This installation gives other businesses a great example of a large scale working installation and lets them know that solar power is a viable option.”

Submitted by Robert J. Persechini/RPersechini@rdkengineers.com

Project of the Month section will be utilized to highlight unique or groundbreaking projects that showcase the talents of the HVAC Engineers in the Boston Chapter. Boston Chapter firms, we encourage you to submit your projects for inclusion as Project of the Month. ASHRAE Boston Chapter can submit your projects to society for honors/awards. We look forward to your submission of projects. Please email the project information to Stacie@stebbinsduffy.com.

ROSTER & PRODUCT GUIDE

Production of the 2010-2011 Roster and Product Guide is underway.

Dear ASHRAE Boston Chapter,

We encourage every Boston Chapter member to take a few minutes to update your data with ASHRAE. You can update your personal information (your address, employer, membership grade, professional registration, etc) by going to www.ASHRAE.org/myashrae, type in your email and password and then click on My Profile (BIO) to update your info. This is very important since the data we publish comes directly from the Society database.

*Please note: Each member will appear in the Roster at the address listed with Society as ‘preferred’ mailing address.

Dear Advertiser,

We have decided to go paperless therefore the 2010-2011 Roster and Product guide will be available online for ASHRAE members. Please stay tuned for more information on 2010-2011 Roster and Product Guide.
